

Product Description

Incandescent E14 bulb

The incandescent E14 bulb with E14 screw base, extensive applied for home lighting, such as microwave bulb, oven bulb and indicator bulb. The filament E14 bulb offers series models such as t18 light bulb, T20 bulb, t22 bulb, t25 40w bulb.

Advantage

- High quality

Todaybulb's incandescent E14 bulb features excellent temperature adaptability, resisting high temperatures and withstanding low temperatures, stably operate in different scenarios.

- Rich Specifications

Todaybulb's incandescent E14 bulb covers various specifications, including t18 light bulb, t22 bulb, and t25 40w bulb, and supports different voltage versions such as 12V, 24V, 110-130V and 220-240V.it can easily meet the needs of basic lighting scenarios and customized requirements of special equipment.

- Instant Response

Todaybulb's filament E14 bulb reaches full brightness instantly upon power - on, with no startup delay.

- Eye - friendly

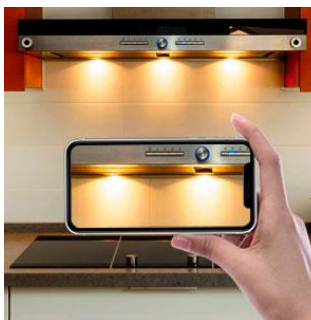

Todaybulb's incandescent E14 bulb's light has no flicker, effectively protecting eye health. Filament E14 bulb provides a stable and comfortable lighting

Multi shape

E14 base

No flicker

Dimmable

Incandescent E14 bulb

Feature

- ✓ CRI100
- ✓ Warm white
- ✓ CE/ ROHS
- ✓ Cost-effectiveness
- ✓ 360°
- ✓ Easy installation

Application

- Home appliances

Microwave Oven bulb, salt lamp bulb, night light bulbs, appliance bulb, stair light bulb, refrigerator light bulb, Display light bulb, dryer light bulb, Wine Cooler, blow- mold decorations, decoration light bulb.

- Indicator bulb

During the maintenance of electronic equipment, 12V/24V voltage T18 bulb can be used as a temporary test light.

Specification

Model	Finish	Power (W)	Voltage (V)	Base	Size (mm)	Packaging
